

It is suitable for cleaning and maintenance of electrical, electromagnetic and electronic contacts. It removes greasy substances and moisture from the surface.

Quantity	200 ml
Barcode	
Box/Case	24

Electronic Contact Cleaner - Specifically formulated for the deep cleaning of electrical, electronic, and electromagnetic contacts. It immediately removes humidity and oily substances such as grease, oil, sludge, wax and glue from the surface, leaving it clean and degreased. The product might be corrosive to certain delicate surfaces.

Technical Specifications:

Aspect	Tin-plate can containing under pressure fluid
Color	Transparent
Odour	Characteristic of solvent
Relative density	0.68 ~ 0.7 g/ml (20°C)
Flash point	12 °C
Pressure (20°C)	0.05 mPa
Dry point	415 °C
Observations	Flammable. Don't use in tension.

HOW TO USE:

- Shake it well.
- Spray directly on surface to be treated from a distance of about 20 cm.
- Do not apply to equipment in tension.
- Do not apply to overheated materials.
- Turn on power only after the complete evaporation of the product.
- Allow time to dry.

MODALITY OF STORAGE

Before using: stock the product in a dry location and don't stock it with a temperature under 0°C and over 45°C, after the use, keep containers closed. In the original package, the product can be conserved for 36 months. The product doesn't expire.
After the first usage: conserve in a fresh and dry location, away from hot spring.
Keep out of reach of children.
